Volatus Aerospace Corp. (the "Company") was incorporated on December 17, 1987 and has its registered office located at in 60 Airport Road, Oro Medonte, Ontario LOL 2EO, Canada.

Volatus and entities it controls are together referred to in these condensed interim consolidated financial statements as the "Company" or "VAC" or "Volatus". Refer to Note 7 for the Company's major subsidiaries.

The Company comprises four main business operations which are all operating under one business segment.

These financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

Volatus is a leading provider of integrated drone solutions throughout Canada, the United States, Latin America and Europe. Operating a vast pilot network, Volatus serves commercial and defense markets with imaging and inspection, security and surveillance, equipment sales and support, training, and design, manufacturing, and R&D. Through its subsidiary Volatus Aviation (registered as Partner Jet Inc.), Volatus carries on the business of aircraft management, charter sales, and cargo services using piloted, remotely piloted, and autonomous aircraft.

2. Statement of Compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting, and on a basis consistent with the accounting policies disclosed in the Company's annual audited consolidated financial statements for the year ended December 31, 2021. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC. These condensed interim consolidated financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2021.

These condensed interim consolidated financial statements of the Company were approved by the Board of Directors on August 28, 2022.

3. Basis of Preparation

These unaudited condensed interim consolidated financial statements are presented in Canadian dollars and have been prepared on the historical cost basis except for financial instruments measured at fair value through profit and loss or amortized cost. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

These condensed interim consolidated financial statements incorporate the results of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in these results from the date the control commences until the date control ceases.

All intra-company balances, and transactions are eliminated in preparing the condensed interim consolidated financial statements.

These condensed interim consolidated financial statements include the accounts of the Company and its subsidiaries (note 7).

Accounts Payable and accrued Liabilities	(6,773)
Tax Liabilities	(2,138)
Identified Intangible Assets	
Customer Relationships	75,827
Goodwill	38,256

The Company estimated the fair value as follows:

 Customer relationships based on an income approach, specifically multi-period excess earnings method, by identifying key customers, applying attribution rate of 20% per annum and discount rate of 16.90% per annum;

The goodwill recognized on acquisition is attributable mainly to the expected future growth potential from the diversified operations and assembled workforce. None of the goodwill recognized is expected to be deductible for income tax purposes.

The Company did not incur any acquisition-related costs.

Goodwill arising on the acquisition of subsidiaries is measured at cost less accumulated impairment losses.

The Company conducted its annual goodwill impairment analysis as at December 31, 2021. The impairment analysis involved comparing the carrying amount of each CGU's assets and liabilities to their respective recoverable amounts. The recoverable amount was determined using the value in use approach measured by discounting the future expected cash flows of the CGUs.

15. Financial Instruments and Risk Management

Financial Assets and Liabilities

The Company has classified cash and cash equivalents and short-term investments as financial assets and measured at fair value through profit or loss. Trade and other receivables are classified as financial assets and measured at amortized cost. Trade payables and accrued liabilities are classified as financial liabilities and measured at amortized cost.

Risk Management

The Company is exposed to risks that arise from its use of financial instruments. The Company's financial instruments comprise of cash and cash equivalents, short-term investments, trade and other receivables, and trade payables and accrued liabilities. Disclosures relating to exposure to risks, in particular credit risk, foreign currency risk, concentration risk, market risk and liquidity risk are provided below.

a) Credit Risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, comprise primarily of cash and cash equivalents and trade and other receivables. The maximum exposure to credit risk of these items is the carrying amount as reported on the financial statements. Cash and cash equivalents are maintained at a major Canadian financial institution. Deposits held with banks may exceed the amount of insurance provided on such deposits. Generally, these deposits may be redeemed upon demand and are maintained with financial institutions of reputable credit and therefore bear minimal risk. Credit risk on trade and other receivables is minimized as a result of the constant review and evaluation of the account balances. The Company also maintains an allowance for credit losses at an estimated amount, allocating sufficient protection against losses resulting from collecting less than full payments from its receivables. There is no indication, as at this date, that the debtors will not meet their obligations, except as has been provided for as bad debts during the reporting periods. The Company manages its credit risk relating to its trade receivables through credit approval and monitoring procedures, including senior management prior approval of all sales. Such approvals are based on trade information, payment history, credit rating and financial analysis, where possible.

b) Foreign Currency Risk

The Company has operations in Canada and the U.S., therefore, has exposure to foreign currency risk. There is exposure to foreign exchange fluctuations on transactions between the Company's entities and upon the consolidation of the Company's foreign subsidiaries. The condensed interim consolidated financial statements are presented in Canadian dollars, which is also the parent company's consolidated functional currency. Each entity within the consolidated group determines its own functional currency.

Assets and liabilities of foreign subsidiaries are translated at the year-end rate and, therefore, have varying values from exchange rate fluctuations. The statements of comprehensive income (loss) of the foreign subsidiaries are translated into Canadian dollars using the year's average exchange rate and, accordingly, exchange rate fluctuations impact the Company's revenues and profit (loss), denominated in Canadian dollars.

Notes to Condensed Consolidated Interim Financial Statements For the three and six months ended June 30, 2022 and 2021

15. Financial Instruments and Risk Management (Continued)

The Company monitors its foreign exchange exposure and its hedging strategy on an ongoing basis. As at June 30, 2022 the Company did not have any foreign currency hedges in place.

The following financial assets and liabilities are denominated in U.S. dollars and are exposed to changes in the foreign exchange rate:

	Six months ended June 30			
	2022		2021	
Cash Account Receivable and other current assets	\$	464,125 459,855	\$	-
Accounts Payable and other Liabilities		(366,389)		-
Net US dollars assets	\$	557,591	\$	-

c) Concentration Risk

The Company is not exposed to customer concentration risk as the Company's revenue are widely distributed across multiple customers and revenue streams. The Company will keep mitigating these risks and uncertainties by focusing its sales energies on securing additional customer contracts across wider revenue streams and channels.

d) Market Risk

The Company's investments are exposed to market risk arising from uncertainties about future values of the investments. The Company manages market risk through diversification and investing only in blue-chip equities with a history of stable return listed on various public stock exchanges. Senior management reviews the equity portfolio on a regular basis.

e) Liquidity Risk

The Company is exposed to liquidity risk to the extent that it is required to meet its financial obligations as these become due. The Company's approach to managing liquidity risk is to ensure that it has sufficient cash and other current financial assets to meet its obligations when due, without incurring unacceptable losses or damage to the Company's reputation. Management forecasts cash flows to identify financing requirements. These requirements are then addressed through a combination of cash management and access to additional capital.

Notes to Condensed Consolidated Interim Financial Statements
For the three and six months ended June 30, 2022 and 2021

15. Financial Instruments and Risk Management (Continued)

f) Sensitivity Analysis

Based on management's knowledge and experience of the financial markets, the Company believes that a 10% movement in interest rates and foreign exchange rates that may reasonably be expected to occur over the next twelve-month period will not have a significant impact on the Company.

16. Commitments

As part of the UAViation Aerial Solutions Limited's acquisition in 2021, the Company had recognized a contingent consideration of \$10,000 that arises because of an earn-out commitment. This consideration was fulfilled and settled in Q2 2022.

As part of OmniView Tech Corp. acquisition, the company has committed to issuing additional 50 shares of Volatus Unmanned Services as an earn-out commitment upon meeting defined targets.

As part of the RPV aviation acquisition, the Company has recognized a contingent consideration of \$25,000 that arises because of an earn-out commitment.

17. Right-of-use assets

As of June 30, 2022, the Company's right-of-use assets consisted of the followings:

18. Government Grants

The Company was awarded a grant of \$75,000 to one of its subsidiaries by Investment Quebec. The grant was started in 2020 to perform hot-spot detection for fire fighting and is non repayable. The grant has been recognized as part of other income.

19. Segmented Information

The Company operates under one reporting segment.

20. Subsequent Events

The Canadian economy continues to be impacted by uncertainties due to the impact of the COVID-19 Virus. This uncertainty has unlocked significant opportunities in unmanned or drone activities and the Company has benefited from this situation. On a going forward basis the volatile effect of the COVID19 pandemic on the economy and the Company is not currently determinable but does not pose a major business risk on a go-forward basis.

On February 24, 2022, Russian troops invaded Ukraine. This has led to sanctions imposed by different countries on Russia (and, in certain cases, Belarus). This unwarranted military action in Ukraine and related events occur at a time of significant global uncertainty and volatility. This uncertainty brings opportunity in the unmanned space as demand for drone technology in military and humanitarian causes increases. The volatile effect of this war does heighten trade frictions between certain countries but does not pose a significant business risk on a go-forward basis.

On July 25, 2022, The Company announced filing of preliminary short form prospectus of 11,111,200 units of the Company (the "Units") at a price of \$0.36 per Unit (the "Offering Price") for aggregate gross proceeds to the Company of up to \$4,000,032. Each Unit of will consist of one common share (a "Common Share") and one common share purchase warrant (each, a "Warrant"). Each Warrant will entitle the holder to acquire one additional Common Share at an exercise price of \$0.50 per Common Share for a period of 24 months from the closing of the Offering. In addition, the Company is undertaking, concurrent with the prospectus offering, a non-brokered private placement of up to 1,388,900 Units at the Offering Price for gross proceeds of up to \$500,004 on same terms.

On August 24, 2022, the Company has been extended additional demand revolving credit facility of \$1,000,000. The total demand revolving facility that has been made available is \$2,000,000. The Company intends to use the same to manage its working capital.

End.
